## MEISTER ENGINEERED REAL WOOD FLOORING

At the heart of the Meister flooring family is innovation. With almost 200 registered patents they are world leaders and game changers, bringing creative and innovative ideas to the market place. Not only are Meister producing flooring that is innovative and beautiful it is also environmentally friendly and carries a wide range of certifications to prove it, so while you can expect the absolute best quality floor guaranteed by Meister you can also be safe in the knowledge that it is safe for you and your family. Our exclusive range of Meister flooring carries the following certifications:

We offer flooring options that are suitable for residential and commercial applications. The entire range is simple and quick to install using the Clic system and easy to maintain and clean.

# LINDURA

**WORLD FIRST  
WOOD FLOORING REVOLUTION  
INCREDIBLY STRONG BEAUTIFUL UNIQUE**

Meister's Lindura Flooring is a game-changer, a revolution in wood flooring technology. This innovative floor has already been said to have the potential to change the flooring market in years to come. It opens up a whole new dimension in the sustainable use of valuable raw materials and in the toughness of wooden flooring.

This unique high-tech floor combines a real wood covering layer, wood powder (made from fine wood powders and other natural additives) and an HDF middle layer under high heat and pressure to produce a floor that is exceptionally beautiful, incredibly strong, pleasantly warm under foot, resistant, easy to lay and maintain and suitable for commercial and residential applications.

The real wood covering layers, with their wealth of cracks, knot holes and pores, provide the perfect conditions for a secure connection to the natural wood powder material. The wood powder helps to bring out all of the distinctive knots, cracks and wooden pores in the wood. The floor is then oiled to give it a more natural appearance, the end result is a stunningly beautiful vintage look floor.

# MODERN PARQUET

THE NEW CLASSICS  
ELEGANT BEAUTIFUL RUSTIC  
INNOVATIVE

Parquet flooring has always been considered beautiful, but it's not normally at the top of the list when selecting a new floor for our homes. Why? The difficulty factor of laying this floor and the resultant cost has put many consumers off this beautiful product. Meister has changed all that, they have taken this timeless classic and made it modern, on trend and without the price tag.

Our range of Meister Longlife Parquet is available in these stunning finishes:

- **3D PLANKED PARQUET:** craftsmanship down to the tiniest detail. The new three-dimensional finish is handcrafted using varying thicknesses of wood to create a truly three-dimensional structure.
- **CHECKERBOARD PARQUET:** a true classic reinvented. The Checkerboard Parquet gives the look of a traditional parquet floor but reinvented in a truly modern and skilful way.
- **RUSTIC PLANKED PARQUET:** the planked parquet look, reminiscent of those decades old wooden floors with uneven cracks and joints worked into the planks during production, accentuating the wood's unspoilt and natural characteristics.

# INTELLIGENT QUALITY : EASY & QUICK TO INSTALL

MEISTER flooring is not only stunningly beautiful in its appearance, it is also incredibly easy to install using the universal UNICLIC system, the QUADROCLIC for the square Herringbone Parquet and Meister's very own patented MASTERCLIC PLUS that makes laying large planks a breeze . . .

## QUADROCLIC

The QUADROCLIC technology is used in the installation of the Checkerboard Parquet making installation easy and the connection between each panel more durable and secure.

## MASTERCLIC PLUS

This patented locking system, which replaces the Uniclic connection on the short side, aids in the fast and extremely secure laying of your Meister floor. It works as follows:

- 1 | The flooring is lowered right next to the neighbouring plank.
- 2 | After lowering, flooring is not yet locked at the ends.
- 3 | The tongue is only activated when the next row is laid.
- 4 | This results in a completely secure connection.

# THE BENEFITS OF A MEISTER FLOOR . . .

MEISTER'S range of real wood flooring has many excellent properties, these are all highlighted below across the PARQUET and LINDURA flooring ranges.

		LINDURA	PLANKED CHECKERBOARD PARQUET	PARQUET
	<b>EXCEPTIONALLY DURABLE</b>	Thanks to the fusion of wood and high-tech materials	■	
	<b>NOISE REDUCING</b>	Thanks to its own weight	■	■
	<b>EASY TO CLEAN</b>	Due to cleaning and protective impregnation in one working cycle	■	■
	<b>ENERGY-SAVING</b>	Due to low thermal resistance	■	■
	<b>FRIENDLY TO THE ENVIRONMENT</b>	Due to the responsible use of raw materials	■	■
	<b>HEALTHY LIVING</b>	Due to the use of natural materials	■	■
	<b>INDIVIDUAL</b>	Thanks to its exceptional format	■	■
	<b>SPACIOUS</b>	Thanks to its impressive chateau plank formation	■	■
	<b>STABLE</b>	Due to the extremely resistant HDF middle layer	■	■
