EXCLUSIVE FLOORING

We offer an extensive range of exclusive laminate flooring that not only creates ambience & brings warmth to any home, it also provides insulation & noise reduction & adds a great decorative element & aesthetic to any interior space. Creating the look of real wood with all the comfort & practicality of a laminate floor.

Our laminate flooring offers excellent value for money & high quality features including the fact that it is hard wearing, non fading and stain resistant, produced from natural sustainable raw materials & low maintenance; this flooring ensures excellent appearance & performance. Best of all? It features a glueless clic system, is easy & quick to install & offers ultimate durability.

ENVIRONMENTAL POLICY

Rooms flooring offers a completely transparent chain of custody from forest to floor. Through the Environmental Product Declaration (EPD), Rooms discloses fully the ecological tally of their wooden products. The EPD is recognised worldwide as an eco label in accordance with ISO standard 14025.

Every product leaving their factory has to be ecologically sound throughout its life cycle from raw materials sourced from sustainable forests to strictly controlled production processes all the way to environmentally friendly disposal of the product at the end of its life cycle. As a result, Rooms has been awarded the following certifications:

FLOOR12PENTITOK | Titan Oak | NR

penthouse

EXTREMELY DURABLE | CLASSIC PLANK APPEARANCE (V GROOVE) | NATURALLY SOUND ABSORBING

Ultimate elegance and outstanding durability make our range of Penthouse flooring ideal for any application from a luxury home to commercial applications of the highest demand. The 12mm thickness ensures exceptional noise reduction, durability and ease of installation. The NR structure (natural real) achieves its striking likeness to real wood through its precise bonding of grain and textured surface layers, the result is a beautiful floor with an authentic natural real wood look.

SURFACE FINISHES

AW: Natural and vivid typical wood structure.

NR (Register Emboss): 100% realistic wood look due to consistency between pattern & embossing.

BW (Brushed Wood): Deep structure embossing with typical wood matt/gloss contrast.

MW: Brushed wood grain structure creating a rustic embossed look.

THE CLIC SYSTEM

Installing your floor has never been this simple. The installation process is quick, safe and completely foolproof. No need for hammers and blocks, the system clips together simply and precisely and is suitable to walk on immediately after installation.

- Much easier to install.
- Up to 50% quicker to install.
- No hammer, tapping block and pulling bar required.
- Safe and stable.
- You can walk on your floor immediately after installation.
